

Boston City Councillor Frank Baker

Andrew Fees

Boston, South End, Resident

Dear Councillor Baker:

I was informed that a marijuana dispensary has been considered for the former location of Skiptons. As a resident of the South End and someone who lives on Mass Ave, I have to tell you that this is the last thing this area needs. When my wife and I bought our condo 7 plus years ago we knew what the area of Mass Ave was all about and that there would be some challenges with living here. I have to say it is worse then we thought. Between the people who are under the influence on our street daily and the total disregard for the streets and community that we see everyday I find it hard to live here.

This community does enough to help this city with regards to people who are in need. Please don't allow a marijuana dispensary to be put at the old Skiptons location or anywhere else in the South End.

Thank you for your time,

Andrew Fees
